Size: L 228 X H 66 X T30 mm

Made by the traditional method which involves throwing of the clot of clay in a mold box flushed with fine sand, every clot of clay that strikes the mold does so in a slightly different way which leads to a different texture for every brick. A mix of various natural oxides is gently slipped on the surface to create a charming aged look

especially resembling architecture at the beginning of the industrial age in Europe This is a beautiful yet amazingly strong Brick, crisp in shape and can be used to create world-class structures for generations to come.

- Old farmhouse Look
- Weathered beauty
- Unique colour variations
- Timeless beauty

***Specifications:**

Weight: 0.8 Kg
